## TEAR UP TRACKS IN CLEVELAND

Under Orders of Mayor John-  
son and the Board of  
Public Service

AN INJUNCTION WAS ISSUED

BUT JOHNSON SAYS HE WILL NOT  
HEED IT IF HE IS JAILED

Police Reserves Held Ready in Pre-  
dicts to Protect Men from Any  
Possible Violence.

Cleveland, O., July 25.—Judge Ford  
issued an injunction at 11 o'clock, or-  
dering the city workmen under Mayor  
Johnson not to tear up the tracks. "I  
will pay no attention to it," said Mr.  
Johnson.

Johnson, though he puts the re-  
sponsibility upon the Board of Public  
Service, intimates that he will not  
obey an injunction if one is issued,  
and says he may be in jail before  
night. Johnson was asked the mean-  
ing of the city's action.

"It means," said he, "that the  
Board of Public Service is taking up  
the tracks which the Cleveland Elec-  
tric company refused to move. I am  
glad to see the board take this ac-  
tion. The council six weeks ago  
passed a resolution requiring the  
company to remove its tracks to the  
east side of Fulton road to make  
room for the low fare company's  
tracks. It was provided in the resolu-  
tion that if the company did not do  
the work the city should. do it and  
charge the cost up to the Cleveland  
Electric. That is what is being done  
now."

Cleveland, July 25.—War was be-  
gun on the Cleveland electric railway  
company by the city this morning  
when a force of 500 men was sent to  
tear up the tracks of the railway com-  
pany in Fulton street, between Lorain  
street and Franklin Circle.

The force of city employees was un-  
der the direction of Mayor Johnson  
and Chief of Police Kohler, and they  
were protected by a force of police.  
The action of the city was a sur-  
prise to the railway company, be-  
cause nothing of the kind had been  
anticipated.

Vice President and General Man-  
ager John J. Stanley heard of what  
the city was doing soon after the be-  
ginning of hostilities.

He said the purpose of the city was  
to make way for the low fare trolley  
company's tracks, which are expected  
to come down Fulton street from  
Rhodes avenue, to get to the east  
side. Stanley said there was no ques-  
tion of the right of the Cleveland  
Electric company to the use of the  
tracks on Fulton street. He said the  
city's action was in violation of the  
company's franchise rights.

"We shall apply for an injunction  
to stop the work as soon as the courts  
open," he said.

At least a quarter of a mile of track  
has so far been torn up. The men  
were working in four or five gangs.

Superintendent A. B. Dupont of the  
Municipal Traction Company, was in  
direct charge of the men.

This traction war is a result of the  
street railway franchise fight in this  
city. The Cleveland Electric, which  
was formerly dominated by the late  
Senator Hanna and his associates,  
through companies which were later  
consolidated, is operating certain of  
its lines under franchises which have  
expired. It has asked the council for  
renewals of these franchises, also ad-  
ditional franchises. Tom L. Johnson  
who has long advocated three cent  
street railway fare, and municipal  
ownership, has opposed granting  
franchises to the old company unless  
three cent fare was assured and the  
city received what he considered  
proper compensation for giving its  
rights to the trolley company.

For more than five years the battle  
has waged in the courts, nearly every  
move of the city administration being  
blocked by an injunction secured by  
the trolley company. Threats have  
been made by city officials to tear up  
the tracks, but the attack today was  
the first effort in this line. The city  
has also been carried into the Ohio  
state legislature, the enactment of  
laws being desired which would be  
favorable to the traction company. To  
a certain extent the fight is an affair  
of the Republican and Democratic  
political parties also. The Republi-  
cans in a war have supported claims  
of the traction company and Johnson.

and the Democrats have taken issue.  
The Cleveland Electric is controlled  
as president by Horace Andrews, of  
this city, who is allied with the Van-  
derbilt railroad interests in the op-  
eration of big trolley systems which  
feed the railroads.

The city workmen threw the tracks  
entirely out of the street. It was the  
first aggressive step of the city to give  
the streets of Cleveland to the new  
three cent fare lines.

The movement was under the per-  
sonal supervision of Johnson, Direc-  
tors of Public Service Springborn,  
and Dupont Kohler and a police  
squad were present to see that the  
traction company did not bring in a  
gang of men to rush the city em-  
ployers, but their services were not  
necessary up to 10 o'clock.

Police reserves were stationed at  
precincts, however, and bicycle pa-  
trolmen were scouting the neighbor-  
hood to guard against a surprise.  
The action followed notice to the  
Cleveland Electric over a month ago  
to move its tracks over to the side  
of Fulton road so that the new line  
which also has a franchise for a line  
there could lay its tracks. The com-  
pany failed to obey the city's order.  
The mayor said after watching the  
tracks torn up that the company  
would not be permitted to put down  
the same rails again as they do not  
conform to the city's requirements.

He said when the old company gets  
rails to meet the requirements it will  
be permitted to lay them on the west  
side of the road. The new company  
is ready to slap its own tracks down  
as soon as the city's gang gets out of  
the way. It will use only one side  
of the road, and will make no effort  
to keep the old company out.

"Police will guard the territory to  
see that the old company makes no  
attempt to relay the rails that the city  
is tearing up, and that it does not  
block the new line's track laying.

Johnson and his associates, among  
whom are prominent citizens recent-  
ly incorporated the Municipal Traction  
company, a sort of municipal  
ownership move. This company is  
known locally as the "Three Fer"  
line; to distinguish it from the  
"Conceon," the name given by the  
citizens to the Cleveland Electric be-  
cause it is made up of the Consoli-  
dated Early lines of the city. The  
Municipal company took over the  
franchises of the Forest City railway  
company, absorbing that concern.

## WILLIAM J. BRYAN WAS PRESENT

AT IMPORTANT SESSION OF THE  
INTER-PARLIAMENTARY  
CONFERENCE.

At Which a Resolution Was Adopted  
Defining What Shall be Con-  
sidered Contraband of War.

London, July 25.—The Inter-Parli-  
mentary Peace Conference today  
adopted a resolution urging the next  
Hague conference to discuss the sub-  
ject of the limitation of armaments.  
In the meantime pressure will be  
brought to bear on the various parlia-  
ments represented at the conference  
to take action in regard to this sub-  
ject as well as to define what shall  
constitute contraband. A luncheon  
followed the session at which the  
Lord Chancellor, Wm. J. Bryan, Am-  
bassador Whitelaw Reid, ambassa-  
dors of several of the other powers  
and a number of the British cabinet  
members were present.

After a prolonged debate today the  
conference adopted the following res-  
olutions:

"The Inter-Parliamentary Union,  
now assembled in London, expresses  
the view that the second Hague con-  
ference should:

"1. By treaty define contraband of  
war as being restricted to arms, mu-  
nitions of war and explosives.

"2. Reassert and confirm the prin-  
ciple that neither a ship carrying  
contraband of war nor other goods  
aboard such ship not being contraband  
of war may be destroyed.

"3. Affirm that even between bel-  
ligerents private property should be  
as immune at sea as it is on land."  
The decision as to the time and  
place of the next conference was left  
in the hands of the international  
council. It is expected that it will be  
held in Berlin in 1908. The confer-  
ence then concluded its sessions.

Injured in a Collision.  
Salt Lake, Utah, July 25.—Dr. J. V.  
Bouquette, a tourist from New Orleans,  
was severely injured in a collision on  
the Saltair railway, his shoulder being  
dislocated, his ribs crushed and his  
hip hurt.

Manager of Subsistence.  
Washington, July 25.—Jackson  
Smith has been named manager of  
subsistence on the canal zone and  
will be responsible hereafter for all  
hotels and messes. Mr. Smith is also  
manager of labor and quarters for the  
Panama canal commission.

James H. Hart, a night watchman at  
Fort Smith, O., was bitten on the  
hand by a copperhead snake. His con-  
dition is critical.

## WARRANTS ARE SWORN OUT

For Arrest of Officers of Jackson  
Lumber Company.

ARE CHARGED WITH PEONAGE

Party of Germans, Lately Arrived,  
Appeal to the German Vice Consul  
For Protection—Tell a Tale of Cru-  
elty That Has No Parallel in This  
Country.

Pensacola, Fla., July 25.—United  
States deputies, armed with warrants  
for the arrest of officials of the Jack-  
son Lumber company, have gone to  
Lockhart, Ala., the headquarters of the  
company. They are charged with  
peonage in its most vicious form.

If the allegations are true about 100  
immigrants, mostly Germans, are held  
in the lumber camps of that company  
virtually as slaves. A party of Ger-  
mans reached here from the camps,  
stating that they had escaped. They  
went to the German vice consul for  
protection, and told him a tale of ill  
treatment and cruelty that has hardly  
a parallel in the south. They said  
they were brought south in February  
under representations that they would  
receive \$3 and \$5 per day, but only \$1  
was received from the company for the  
labor. They allege that they were  
compelled to eat after the Americans,  
and if nothing was left they got noth-  
ing. None of them was allowed to  
leave camp, and when they attempted  
to leave they were caught and severely  
beaten. When in the woods the bosses  
were armed, and if the men did not  
work to suit them they were stripped,  
and while two of them held a man  
across a log, a third used a strap or  
any instrument of torture handy.

The Jackson Lumber company is one  
of the largest in the south. It was  
organized three years ago and is com-  
posed principally of Michigan and Wis-  
consin capitalists.

Open Door in Manchuria.  
Tientsin, China, July 25.—Japan's  
fulfillment of her promise regarding  
the open door in Manchuria continues  
to be the principal topic of eastern  
politics. The chamber of commerce  
of Shanghai has repeatedly requested  
the diplomatic corps to take action to  
insure equality of trade conditions,  
but the majority of the diplomats do  
not consider that the situation de-  
mands it, and consequently, united  
action is improbable. American ne-  
gotiations for the opening of Mukden  
and Antung are proceeding.

Five Blocks Burned.  
Salinas, Cal., July 25.—A fire which  
started here at 2:30 o'clock in the af-  
ternoon burned until 9 o'clock, and  
night, causing a loss of \$100,000. Five  
entire blocks, including twenty resi-  
dences and eight business plants, were  
destroyed. The fire was checked be-  
fore reaching the main business dis-  
trict.

FOREIGNER

Two Weeks in This Country and Al-  
ready in Trouble.

St. Louis, July 25.—By impersona-  
ting Mrs. Theresa Bernero, a wealthy  
Italian widow, Policeman Carpenter  
last night captured a man giving his  
name as Johann Hoppe, who is held  
on a charge of sending a threatening  
letter to Mrs. Bernero demanding \$500  
in cash. An appointment was made  
for 8:30 last evening, and Carpenter,  
dressed in one of Mrs. Bernero's  
gowns, followed the direction contain-  
ed in the letter. He was accosted by  
a man who demanded the money. Car-  
penter handed him a package with his  
left hand, at the same time striking  
him on the jaw with his right. The  
man showed fight, and Carpenter,  
hampered by the dress, was worsted,  
and the man fled. Other police who  
had been stationed in the neighbor-  
hood took up the chase and Hoppe  
was arrested while hiding in an ash  
bin. Beyond saying that he had been  
in St. Louis only two weeks and in  
this country only 18 days, Hoppe re-  
fused to make a statement.

Same Result by Another Plan.

Toronto, O., July 25.—Plans for the  
formation of a mammoth sewer pipe  
combine, to take place of the one  
which recently quit operation after  
threats of prosecution had been made  
against it, are said to have been made  
by manufacturers of the United  
States. The merger will affect not  
only the American Sewer Pipe com-  
pany, but all the independents. Ohio  
Valley manufacturers are the projec-  
tors of the move.

POLICEMAN FIRED  
KILLING HOLMES

FATAL PISTOL DUEL ON STREETS  
OF CINCINNATI WEDNES-  
DAY MORNING.

Officer Ordered the Man to Quit Sing-  
ing and the Latter Immediately  
Opened Fire.

Cincinnati, July 25.—James Ross-  
iter, a policeman shot and killed H.  
C. Holmes, 45, a merchant of West  
Union, Ohio, in a revolver duel on  
Government Square at 4 o'clock Wed-  
nesday morning. Holmes fired five  
shots which went wild. The police-  
man fired five. Although it was dark  
his aim was so accurate that the three  
that went to the mark were circled in  
a group around the heart.

The incident leading to the killing  
was trivial. Rossiter was taking a  
lunch at the Dennison hotel. Holmes  
was a guest at the hotel. He came  
in just as Rossiter had finished his  
meal. He was singing. "Why Will  
You Die?" an old hymn, was his  
song. Holmes walked out into the  
street and the policeman followed.

"You will have to quit that singing,"  
said the policeman. Holmes drew his  
revolver and fired and the fatal duel  
was on. Holmes had been acting  
queerly since his arrival in the city  
last Saturday. He at one time was  
confined in an asylum.

Policeman Rossiter said after the  
shooting: "Almost before I could  
realize what had happened Holmes  
had opened fire on me. I didn't have  
the slightest wish to arrest him, or  
harm him in any way. He was sing-  
ing, the hour was early, and I merely  
ordered him to desist."

Rossiter has twice been fined \$100  
for drinking while on duty. The last  
time he signed a pledge promising not  
to take a drink for two years. His  
superior officers say he has complied  
with every condition of this pledge.

VILLAGE DESTROYED.

Lyon, France, July 25.—The vil-  
lage of Fourneaux de Maunienne Mac-  
donna was devastated today by a  
cannon shot, which killed 10 and  
wounded 20. Twenty-two houses  
were swept away and tons of mud  
and refuse covering the railway  
tracks, stopping all traffic. It  
is feared the death list will be long.  
Thus far 30 persons have been re-  
ported missing. The damage to  
property is estimated at 5,000,000  
francs.

NEWSPAPERS SUPPRESSED

TELEGRAM OF INSTRUCTIONS SENT  
OUT TO ALL GOVERNOR GENERALS

Two Hundred Men Thrown Into Prison  
in St. Petersburg But Secret  
Meetings are Being Held.

Paris, July 25.—The St. Petersburg  
correspondent of the Journal tele-  
graphs that, despite the prevailing  
calm in the city, there were 200 ar-  
rests Tuesday night and that four  
newspapers were seized.

St. Petersburg, July 25.—Premier  
Stolypin has addressed a telegram to  
the governor generals, governors and  
prefects throughout Russia, and to the  
viceroys of the Caucasus, as follows:

"In conformity with instructions re-  
ceived from the emperor with the  
view of securing full co-operation be-  
tween the different local authorities, I

hereby inform you that the govern-  
ment expects you to exercise vigilant  
and untiring supervision over your  
subordinates so that order may be  
promptly and definitely restored. Dis-  
turbances must be suppressed and re-  
volutionary movements must be put  
down by all legal means. The mea-  
sures you take must be carefully con-  
sidered. The struggle begun is  
against the enemies of society and  
not against society itself. Conse-  
quently wholesale repression cannot  
be approved. Imprudent and il-  
legal acts are likely to give rise to  
discontent instead of conducting to  
calm, and cannot be tolerated. The  
intentions of the emperor are immu-  
table. The government firmly desires to  
assist in the amendment of the legal  
procedure and the laws hitherto en-  
forced, which no longer serve their  
purpose. The old regime will be re-  
generated and order must be fully  
maintained. You must act on your  
own initiative, as you are invested  
with responsibility. Firm and vigor-  
ous steps taken on these lines will  
doubtless be upheld by the best part  
of society."

The manifesto bears a remarkable  
similarity to the earlier compositions  
of Ministers of the Interior Plehve  
and Boulgoin, and the reactionary has  
sought difficulty in cutting it down,  
as they already had done with yester-  
day's imperial manifesto, into an ap-  
peal to the "League of the Russian  
Men" and other old school Russians to  
join and smite all the progressive  
classes.

The Constitutional Democratic club  
and two other political clubs were  
closed last night by order of the police  
authorities. A census of constitution-  
al democrats was being held at the club  
headed at the time by Prince Paul  
Dolgorouff, chairman of the central ex-  
ecutive committee, a general at Vi-  
borg on Monday, and a meeting of  
the club was held on Tuesday at  
the Hotel de Ville. A list of names  
of democrats is being compiled for the  
purpose of a national congress of the  
party. This was stated by a member  
of the club in St. Petersburg.

St. Petersburg, July 25.—The St. Petersburg

St. Petersburg, July 25.—Premier  
Stolypin has addressed a telegram to  
the governor generals, governors and  
prefects throughout Russia, and to the  
viceroys of the Caucasus, as follows:

"In conformity with instructions re-  
ceived from the emperor with the  
view of securing full co-operation be-  
tween the different local authorities, I

hereby inform you that the govern-  
ment expects you to exercise vigilant  
and untiring supervision over your  
subordinates so that order may be  
promptly and definitely restored. Dis-  
turbances must be suppressed and re-  
volutionary movements must be put  
down by all legal means. The mea-  
sures you take must be carefully con-  
sidered. The struggle begun is  
against the enemies of society and  
not against society itself. Conse-  
quently wholesale repression cannot  
be approved. Imprudent and il-  
legal acts are likely to give rise to  
discontent instead of conducting to  
calm, and cannot be tolerated. The  
intentions of the emperor are immu-  
table. The government firmly desires to  
assist in the amendment of the legal  
procedure and the laws hitherto en-  
forced, which no longer serve their  
purpose. The old regime will be re-  
generated and order must be fully  
maintained. You must act on your  
own initiative, as you are invested  
with responsibility. Firm and vigor-  
ous steps taken on these lines will  
doubtless be upheld by the best part  
of society."

The manifesto bears a remarkable  
similarity to the earlier compositions  
of Ministers of the Interior Plehve  
and Boulgoin, and the reactionary has  
sought difficulty in cutting it down,  
as they already had done with yester-  
day's imperial manifesto, into an ap-  
peal to the "League of the Russian  
Men" and other old school Russians to  
join and smite all the progressive  
classes.

The Constitutional Democratic club  
and two other political clubs were  
closed last night by order of the police  
authorities. A census of constitution-  
al democrats was being held at the club  
headed at the time by Prince Paul  
Dolgorouff, chairman of the central ex-  
ecutive committee, a general at Vi-  
borg on Monday, and a meeting of  
the club was held on Tuesday at  
the Hotel de Ville. A list of names  
of democrats is being compiled for the  
purpose of a national congress of the  
party. This was stated by a member  
of the club in St. Petersburg.

# THE HOME CIRCLE

## Smart Linen and Cotton Frocks

BY DOROTHY DALE.

The larger plate this week illustrates two summer costumes, which are both good models for morning or afternoon wear. The designs are rather simple in style, but are exceedingly smart-looking, the gowns from which the drawings were taken being decidedly effective. The little coat and skirt suit in linen is one of the most desirable models of the season and shows the correct dress for street or traveling during the warm-weather season. The cut of the coat is on the fashionable half-length, hip-length model, and smart this spring and summer; and, if smartly tailored, the style is usually an exceedingly becoming one. Lines of almost any desired color may be used, some of the coat and skirt costumes intended for summer-resort wear being in bright watermelon pink, delicate lavender, pale blue and such shades, although the style of making is quite as severe as the model shown in the drawing. For wear in the city, however, or for short trips by rail, the natural color, light brown, cream or gray linens are most practical, the linen being rather heavy in quality and of rather coarse weave.

Some of these models are made without other trimming than stitched bands, etc., of the material; but a collar of contrasting color or of white or black is generally a little smarter looking, the touch of black on the suit shown in the plate giving it a distinctive air that would otherwise have been lacking. Black or white moire silk is often used in this way on these light-colored linen suits, and when the linen is of the ecru or pale brown tone, golden brown moire used in this way is most attractive. The coat illustrated was made with a seam in the middle of the back and had three pockets, one over each hip and one at the left side.

The skirt was made five inches from the ground, and was in four sections, with a seam in the middle of the front, and one on each side. The bottom of the

skirt had a three-inch band set on just at the top of the hem, this band being cut up at intervals in a little square tab, following the design of the collar and cuffs. The hat worn with this little costume, which was of bluish gray linen, was of fine gray cloth, the edge of the upturned brim being finished with a very narrow cord of black moire. The high crown was bound with black moire ribbon, with their dark, glossy green foliage and a long, full white egrette. The little muslin gown illustrated was made in a particularly graceful, girlish fashion, the design being very good for any of the less elaborate cotton materials, such as dimity, Swiss, the lawn or plain white mull. The model frock was of pale blue dimity, the material having a little openwork stripe at half-inch intervals. The waist was tucked to the bust line, and was made with a square Dutch neck, although a collar and little yoke of white lace or embroidery could be inserted if desired. The trimming of the gown consisted of two and a half inch bands of pale blue batiste of the same shade as the gown, embroidered in white, these bands being edged with a narrow frill of creamy Valenciennes lace. The sleeves were merely full elbow length puffs, with a band of the pale blue embroidery, edged with lace by way of finish, and the girdle was of blue moire ribbon to match.

The skirt was made with a fitted yoke upper part, to which was attached two deep ruffles, the upper ruffle being headed by a band of the blue embroidery. There was a foundation skirt of plain white lawn, to which the bottom ruffle was attached, the yoke and upper ruffle falling loose over this lawn foundation skirt.

This model is also very pretty in fine white lawn, batiste embroidery and lace being used as trimming, and as it is made so simply, withstands frequent launderings most satisfactorily.

## The Smaller Details of Dress. By Dorothy Dale.

Belts and girdles are to be worn this summer even higher than during the past season, the draped girdles for many of the summer frocks extending well up under the arms in many cases.

Corded cotton or silk belting in pale blue, pink, lavender or any desired color, attached to a handsome buckle, is much fancied for wear with the short white skirt and blouse, many smartly dressed young women wearing the belt, the belt being of the same shade, and the blouse, which is worn with white shoes, also matching.

The back comba worn in the hair this season are made with very broad upstanding tops, these combs being worn rather high on the head just below the knot of hair. There is quite a fancy for the ones having high-spiked tops, but the

very attractive under petticoats for wear with these frocks are made of fine cambric, the skirt being fitted as carefully about the hips as is the outer skirt. The flounce is made of lawn and is cut almost to the knee and covered with a lace ruffle made by joining one strip of gathered lace to the one below, the lace being about three inches in width.

A bow with long loops and ends of wash ribbon in pale pink or blue or some light color in harmony with the gown may be attached at the heading of the flounce at the left side.

Brown promises to become one of the favorite colors during the next few months, and although it is not a shade that can be worn a great deal during midsummer, touches of it are already appearing in the new gowns and hats, and brown shoes and hose are much worn with morning frocks, or for street wear.

Many of the French model hats show brown tulle used under the brim across the back, this ecche-pague of brown be-

is something in the brown coloring which acts as a perovite.

White or ecru, trimmed with yellowish Valenciennes lace in wide bands and strips of insertion, and worn with a yellow satin ribbon girdle and a leghorn hat trimmed with white, was one of the most modish costumes seen at a certain fashionable resort recently.

Handkerchiefs with colored borders or those with a cross barring of color are very much in vogue and are particularly smart when worn peeping out of the pocket of one of the linen tailored coats.

### Decorative Uses of Wall Paper.

Few women are aware of the decorative possibilities of wall papers, when applied to other than their original uses. In the summer home their possibilities are simply endless. Some really artistic empire shades for the oil lamps of a summer house—it were nonsense to call it a cot-

## Suggestions for Housefurnishing

BY BEATRICE CAREY.

In selecting wallpaper for any room it makes a great difference whether there are to be many pictures hung on the wall, as a paper having much pattern or covered with a flower design, etc., etc., does not look well where many pictures are to be used, as the effect of the pictures is lost with such a striking background. Such papers are only desirable in a bedroom, or such apartment, the rooms on the lower floor of the house being much better in effect, as a rule. If a plain ground or two-tone paper is used.

For living-room walls plain green grass cloth or Ingrain paper makes an excellent background, and the papers in two tones of soft green, showing leaf forms on a lighter green background are also very desirable and make a charming background for pictures and furnishings.

In framing pictures use a gilt frame, but seldom, unless the picture is an oil or water color painting. Natural wood frames, toning in with the tone of the picture is, as a rule, much more artistic, and the touch of brightness can be introduced by using a good deal of old brass, such as brass sconces, candlesticks, jugs and hearth fittings and a few bright copper pieces.

Do not arrange the furniture stiffly and avoid placing the different pieces about the wall. It often adds much to the coziness of a room to have the davenport or a large sofa across one end or beside the fireplace, pushed out into the room, and in some cases the davenport may be placed back of the piano. Of course, one has to try the effect of such arrangements, as no rule can be

given, of course, as so much depends on the size and shape of the apartment. Whenever possible use dark wood for the furnishings of a living-room, dining-room, etc., etc., mahogany or wood finished in mahogany color being especially desirable. And rich-looking. Avoid fancy designs and any too ornate furniture, the pieces modeled after the colonial designs being especially good. Always use rugs laid over a hardwood or stone floor whenever possible, and have curtains of white or cream net, Swiss or thin muslin in preference to the cheaper ready-made curtain of the allover lace variety. Such curtains can be easily made at home, the ones made of net inset with a band of heavy lace and a narrow braid lace edge being quite elaborate enough for the reception-room or parlor.

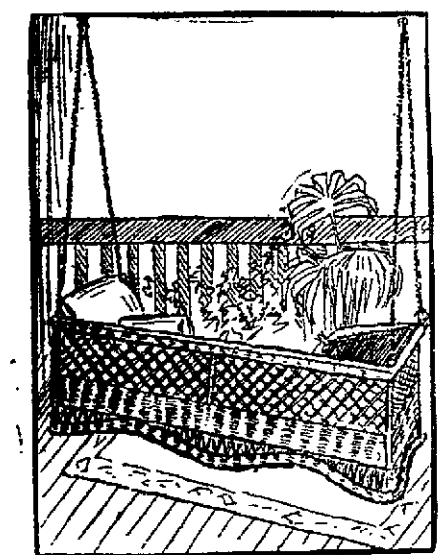

Cover the chairs with old pieces of brocade or damask or plain velvet, having the colors in the room carefully chosen so that there will be no discordant colors. Rose color, soft dull red, tones of yellow, and browns can all be safely used in a room where the paper is in green shades, or in any of the colors just listed, a blue wall covering being a little more difficult to combine with many shades with success, although some charming rooms where the wall was done in a soft, dull blue have been recently seen. The woodwork in this case, however, should be white, or the room would be apt to be rather heavy in effect, and there should be a great deal of light and sun when a blue wall covering is decided upon.

## Wicker Porch Swing

The accompanying illustration shows one of the wicker porch swings, so comfortable for the summer piazza, the one shown in the sketch being painted green with a linen-covered cushion bound with red braid covering the seat. This cushion is really a mattress made to exactly fit the seat, and the cover is buttoned on so that it can easily be laundered. The swing should have a comfortable supply of pillows, which, with their gaily colored covers, add much to the color scheme.

Chains are used to suspend it to the roof of the piazza, these swings also being very desirable for the inclosed porch of the winter season.

## Summer Salads

Although salads are much liked at all seasons of the year, they are particularly good during the warm weather, and many a summer luncheon or Sunday night tea is planned with a toothsome salad as the chief dish. Some of the meat salads are quite substantial in character, and for a simple home luncheon or tea make a plentiful meal when served with rolls, hot biscuits or sandwiches and an omelet or some such addition.

Celery and Apple Salad.—Two sweet apples, one head of celery, one-half a cup of English walnut meats, a little salt and a half cup of mayonnaise. Pare the apples and cut in small pieces; cut the celery in small cubes and chop the nuts, not too fine. Marinate with oil and vinegar in the usual way, and serve with the mayonnaise on lettuce.

Bean Salad.—String young beans, cut into inch lengths, and boil in salt water until tender. Drain well, and to each quart of beans used add a chopped onion. For the dressing take three tablespoonsful of vinegar, two of salad oil, and salt and pepper to taste. Beat the vinegar and oil together, add the seasoning, and pour over the beans. Mix well and set away on the ice for an hour before using.

Sweetbread Salad.—Take a pair of sweetbreads, let them stand in cold water long enough to extract the blood, then put them in salted water to cook for half an hour. When cool pick them in pieces, removing the pipes and tough portions. Drain one-half a can of mushrooms and one-half a can of French peas and add to the sweetbreads. Marinate with French dressing, and serve with mayonnaise dressing, to which a little onion juice has been added, placing the salad on white lettuce leaves.

Another bouquet salad is made by arranging a mound of celery, cut into dice, in the center of radishes, cut to resemble roses, placed around the celery and on top. Arrange watercress around the whole and serve with French dressing.

SARA CRANFORD.

plain curved tortoise shell, without knobs or any sort of ornamentation, is also very good style. Amber combs are much in vogue and are taking the place of the gold ones, so long in favor, and the real and imitation tortoise shell is always in evidence.

Charming necklaces are shown in semi-precious or mock jewels, the settings and designs being most artistic. One especially pretty one was of sapphires set in a dangling fashion in gold, the bright, soft blue of the stones being most becoming to the wearer's blond coloring.

Cannon cloth, which comes at 12½ cents a yard or thereabouts, makes very practical short skirts and resembles linen to such a degree that it takes a close examination to tell the difference. These separate skirts are best when made on a zoned pattern without plaits, as the plaited models are so difficult to launder, and are apt to put very much out of shape after the first washing.

ing used on hats of almost any color, as well as on black. Many of the fancy white waists, as well as those made in tailored style, are made with a turndown collar, which is worn with a silk bow tie or an inch-wide piece of black or colored velvet ribbon, which is tied in a small flat bow in front.

The early fall models for taller gowns are already being designed, and one of the new ideas which a leading tailor tells me will be exceedingly "chic," is to have a coat of plain cloth with a plaid skirt to match. For instance, a black broadcloth coat will be worn with a skirt of black, blue and green plaid, or of black and white, and a brown coat will be worn with a brown and green plaid skirt. These coats will be short, somewhat like the one shown in the illustration, the skirts being long and quite draping around the bottom.

For protection from sunburn the brown chiffon veils are more of a safeguard than those of any other color, as there

is, when it boasts of a round dozen of bedrooms—and one third that number of bathrooms—but since it is in a country village where electricity has not yet penetrated, and where the inhabitants prefer to use the old-fashioned lamps, the field for fancy shades is a wide one.

In this instance a rather thin Bristol board was cut to the required shape, and in place of pasting the joined edges together and so trying to conceal the joining, it was boldly emphasized by being lined together with a gold cord and tasseled ends. Large sprays of poppies relieved with wheat ears were cut from a wall paper sample book and pasted on the edges of the shade, top and bottom, being bound with a gilt galloon. The弊 of board back of the poppies was scraped thin, so that the red light gleamed some-what through the flower. Similar ones were made for the candlesticks, only in this case it was plain asbestos paper on which the cut-out design was pasted on, and a bead fringe tacked on the lower edge made all of the smart finish that could be desired.

## Summer Recipes

Peach Ice-cream.—Chop two quarts of peeled peaches very fine and sweeten to taste, beginning with a cup of granulated sugar and adding more if desired, or half a pound of granulated sugar with a teaspoon of water, making a syrup, and when cold sweeten the ice-cream with that. Stir into the sweetened peaches a few drops of the lemon-juice, then beat the fruit mixture into a quart of rich cream and turn into the freezer. Grind until very stiff, then grind as fast as possible until the mixture reduces to turn. This makes the mixture smooth. Remove the dasher, pack down with a spoon and put a circle of thick wrapping paper under the lid and pack in ice and salt until needed.

Green Corn Fritters.—To one pint of grated corn pulp add enough sifted cracker crumbs to hold the mixture together, also half a teaspoonful of baking powder and salt and pepper to taste. Drop the mixture from a teaspoon into hot fat, making the fritters the size of an oyster. Fry in light brown color and drain on soft paper. Serve on a folded napkin.

Belgian.—These are delicious little cakes and are well worth the trouble it takes to make them. Beat together until very light three whole eggs and two yolks. Gradually whip in six tablespoonsful of powdered sugar and a pinch of salt, then a cupful of sifted pastry flour. Stir in a quarter of a pound of blanched almonds cut in strips, add 10 drops of vanilla and one drop of almond extract. Spread half an inch thick on a shallow greased pan and bake in a moderate oven until a pale yellow. While warm cut in inch strips then into three-inch lengths. Put these strips together in pairs, with a filling of apricot jam.

Cream of Corn Soup.—Score each row of kernels with a sharp knife and press out the pulp, then cook the ears in a little cold water, adding this water, well reduced, to the pulp. Let simmer 10 minutes, then pass through the sieve into the sauce, add milk, salt, pepper and butter. When fresh corn is not at hand canned corn can also be used, or better still, cornstarch. The proportions are one pint of corn pulp, one pint of white sauce, one slice of onion, salt and pepper.

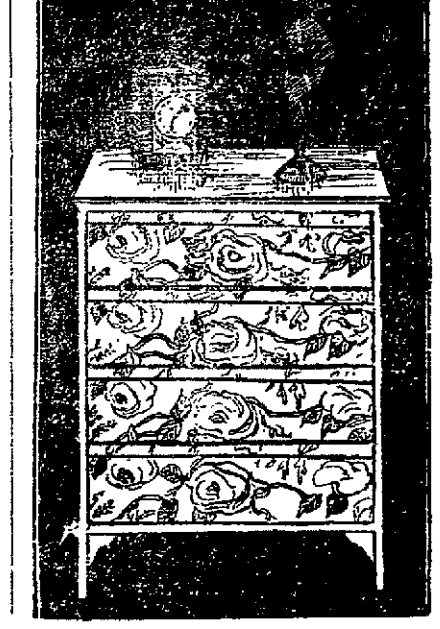

## For Miladi's Hats

The following drawing shows a very useful little stand for my lady's bonnet, or the useful little piece of furniture would not be difficult for the home carpenter to copy. The stand is about the height of a chiffonier and is designed to hold hats, hanging shelves in which the hat-boxes, covered uniformly with flowered wall-paper, are placed. The stand sketched was of wood painted in white enamel, the four large hat-boxes being covered with ruse-downed paper.

Any woman who has struggled with the problem of storing away hat-boxes, where the hats have to be kept in one's own room and the cupboard has not sufficient shelf room, will appreciate such a little stand, which is decidedly decorative as well as most useful.

The little candlestick shown in a very artistic model in Russian brass, the design showing a bird holding the candle-holder on its outstretched tail.

## Paxtine Toilet Antiseptic

A new medicinal powder to be dissolved in warm water and used in local treatment of mucous membrane affections. Paxtine cures nasal catarrh, uterine catarrh caused by feminine illness, sore throat, sore mouth, and inflamed eyes by removing the inflamed, ulcerated and catarrhal conditions; thus it destroys all disease germs, checks discharges, stops pain and heals the sores.

You cannot cure these mucous membrane troubles by dosing the stomach, but you can cure them by local treatment with Paxtine because it possesses extraordinary cleansing, germicidal and healing qualities unlike anything else. Thousands of persons testify to this fact, and one of our trial size boxes will convince anyone.

As a toilet requisite Paxtine is unequalled for whitening the teeth, removing the germs of decay and purifying mouth and breath.

Mrs. Ann Douce of Marlton, O., stat-  
ing that she is believed to be in a dy-  
ing condition. Mrs. Douce who is 84  
years of age, it will be remembered,  
fell near her home about six weeks  
ago and sustained severe injuries.  
She has been in bed ever since, and  
for some time, and it is said that the  
later illness is a result of the acci-  
dent.

### War on Blackbirds.

War on the blackbirds has been de-  
clared by the people residing on Pe-  
arl street. The trees on this thor-  
oughfare have been a favorite roost-  
ing place for the birds for some time,  
and every evening they swarm from  
all directions by the thousands, filling  
the trees until it seems that they  
must break beneath their weight.  
They have become a great nuisance,  
but all efforts thus far to get rid of  
them have proven unsuccessful.

### Mr. Walker's Condition.

Abraham Walker, the young man  
who accidentally shot himself with a  
double-barrelled shotgun at Idlewild  
park on Tuesday is getting along  
nicely and the attending physician is  
of the opinion that if no unusual com-  
plications set in he will recover. The  
right arm of the young man was am-  
putated just above the elbow and a  
part of the left hand was amputated.  
The young man was given very  
prompt and helpful assistance after  
the accident by Mr. Goff and his son  
Harry, proprietors of the hotel at the  
park.

### Masonic Excursion.

One of the biggest excursions that  
has ever been run over the T. & O.  
C. railroad this season, was that un-  
der the auspices of Center Star lodge  
of Masons of Granville, on Wednes-  
day morning. Large numbers of ex-  
cursionists from points south of  
Granville availed themselves of the  
opportunity to take in this enjoyable  
excursion, and about one hundred  
people boarded the train at Granville.  
Of these about 60 were from Gran-  
ville and forty-five from Newark. The  
Newark people are expected to return  
home shortly after midnight tonight.

ously ill, is much improved.

## CONFERENCE WITH CITY COUNCIL

MR. VERRILL SAYS NEW OWNERS  
INSIST UPON APPRAISEMENT  
OF WATER WORKS.

Suggests New Contract Might be  
Made With City But Solicitor  
Says It's Impossible.

An informal meeting of members of  
the city council, board of public ser-  
vice, mayor and city solicitor was held  
today with Mr. H. M. Verrill, the new  
owner of the water works plant. Ac-  
companying Mr. Verrill were Messrs.  
F. M. Black, his local attorney, and  
William A. Veach, the manager of the  
plant.

The matters talked over at the meet-  
ing pertained to propositions looking  
to the purchase of the plant by the  
city. Mr. Verrill was asked by sev-  
eral present to name a price for the  
plant. This he declined to do, for the  
reason, as he claimed, that he could  
not satisfy the wishes of his clients,  
the other bondholders and owners, by  
any other method than an appraisal of  
the plant by engineers to be chosen  
for the purpose by the city and the  
water works owners.

Mr. Verrill explained that the propo-  
sition he had to make is that if an  
appraisal is made the city will not  
be bound to take the property at the  
price.

Mr. Verrill also argued that both the  
people of the city and the water works  
owners would have a better knowledge  
of the actual value of the plant if an  
appraisal were made by competent  
engineers together with a schedule of  
the property, its equipment and condi-  
tion. Several members of the council  
expressed themselves that they did not  
think an appraisal was necessary,  
and preferred to have Mr. Verrill name  
a fixed price for the plant.

A suggestion came from Mr. Verrill  
in the desultory talk that a proposi-  
tion might be made for a new contract  
with the city to furnish water at re-  
duced rates. This brought a response  
from City Solicitor Bolton that this  
could not now be legally done.

There was nothing said at the confer-  
ence that indicated the probability  
of anything practical being done. The  
only result of the conference was an  
agreement that Mr. Verrill should  
make a proposition in writing to be  
submitted to the next regular coun-  
cil meeting to be held on August 6.

### ATHERTON-BULLOCK.

Charles Atherton of Chatham and  
Miss Joyce Bullock of St. Louisville,  
were married at the Chatham parson-  
age, July 22, the Rev. L. I. Hart, of  
the M. E. church officiating.

We are informed by Mr. J. S.  
Kuster proprietor of Kuster's Cafe,  
that owing to the increased trade he  
is compelled to install a first-class chef  
and beginning tonight will be open to  
the public, both day and night. Best  
of service guaranteed. 23d3t

### May Test the Law.

Extensive preparations are said to  
be in progress by the railroads oper-  
ating in Ohio to test the legality of  
the two cent fare law that was adopted  
by the last legislature. An agree-  
ment is said to have been made sev-  
eral months ago by representatives of  
the various Ohio lines to perfect a  
thorough system of accounting which  
will give an accurate demonstration  
of what they believe to be a serious  
shrinkage in the passenger receipts  
at the end of a six months' trial. The  
189-day test will end September 1  
and as soon as accurate reports have  
been made on the earnings during  
that period under the provisions of  
the statutes the courts, it is believed,  
will be requested to pass upon the le-  
gality of the act. Many officials be-  
lieve that serious losses will develop  
in the operating departments. They  
say that many of the trunk lines are  
carrying more passengers this year  
than formerly, but at such an in-  
creased expense that the cost of op-  
eration greatly exceeds the revenue  
derived from the transportation of  
passengers under the two-cent law.

### Railroad Notes.

The Mansfield B. & O. yard engine  
which has been in the shops here for  
several weeks, undergoing a general  
overhauling, has been returned to  
Mansfield and is back in service.

At Hutchinson, Kan., a club was  
organized to boom the town and in-  
crease the population to 25,000 and  
the wife of one of the members im-  
mediately presented him with trip-  
lets.

her home in Woodside.

Mr. William A. Sprague received  
word from the Mc Carmel hospital,  
Columbus, Tuesday, that Mrs. Eliza-  
beth Rankin, who underwent an opera-  
tion for appendicitis some days ago, is  
showing a steady and rapid improve-  
ment, although it will be several weeks  
before she will be able to return home.

## DRAKE PROBABLY INSANE.

Joseph Drake, who attempted sui-  
cide Monday morning, and who is at  
the Newark Sanitarium believed to be  
insane, is said to be improving and  
appeared much brighter Wednesday  
than he has at any time so far.

Drake, has a wild, unnatural ex-  
pression in his eyes and is believed to be  
much affected in his mind by the acci-  
dent of six years ago. He asked for  
his clothes and said to an attendant  
that if he had, or could get, his cloth-  
ing he would go away from there.

There is but little doubt but what he  
will make another attempt upon his  
life and in case he does it is highly  
probable that he will see to it that his  
purpose is accomplished for he is a  
man of unusual nerve and grit.

## THE GRIM REAPER

### MRS. STEWART BARNES.

the sale of the H. Shipley farm. The  
buyer, Mr. Snyder of Fostoria, was to  
meet Mr. Shipley in Newark on the  
Monday following the sale to com-  
plete necessary arrangements, but he  
failed to appear and has not been seen  
or heard from since.

### Wants a Decision.

Washington, July 25.—The depart-  
ment of justice will be asked by the  
navy department whether a warship  
under construction is public work of  
the government within the meaning of  
the eight-hour law. Some years ago at-  
torney General Gluck rendered an  
opinion that a ship and its construction  
was not public work of the govern-  
ment, but it is intended to bring the  
case again before the department in  
order to have a new construction of  
the law.

The disclosures made in the divorce cases of Corey and Hartje and the murder case of Thaw have shown us samples of the kind of men tainted prosperity breeds in the "higher class." Their wealth is due to the tariff or other special privileges, which gave them a monopoly, and their morals are due to ill-gotten wealth. The last, worst curse of the earth is this adulterated prosperity of ours. We need a new deal and a square deal, but we can get one only through a Democratic Congress.

That the great life insurance companies paid dearly for the illegal acts of their managers in making large contributions to campaign funds and in lining their own pockets in various ways is evidenced by the report of the New York state insurance department just issued. According to the report, the life and casualty insurance companies doing business in the state issued 83,396, fewer policies in 1905 than in 1904, the amount of insurance showing a decrease last year of \$151,724,854. Moreover, 76,324 more policies terminated in 1905 than in 1904, and \$98,588,766 more insurance. The New York companies not only lost the money unlawfully expended by their officials, but also the large amount involved in the great reduction of business mentioned above. Their costly experience certainly ought to prove most valuable for the future.

**POLITICAL NEWS  
OF THE COUNTRY**

**TAMMANY MAY SUPPORT W. H. HEARST FOR GOVERNOR OF NEW YORK.**

**Western Democrats Expect to Regain Congressional Seats Lost in Roosevelt Landslide.**

Chicago, July 25.—Democratic national headquarters for the Western state in the fight for additional Democratic Congressmen are to be opened in Chicago next week. Congressman Henry T. Rainey of Illinois, the only Democratic member of the lower house from this state, and Congressman James T. Lloyd of Missouri, will be in charge.

Both Congressmen have been here and have arranged to open headquarters in the Palmer House August 1. It is the purpose of the national organization, through its Congressional committee to make great efforts to win back the Congressmen who were lost in the Roosevelt landslide in 1904. In the ordinary course of events it is expected that this can be done, inasmuch as a number of Democratic districts which, under normal circumstances, could not be carried by the Republicans, were taken out of the Democratic column by the phenomenal Roosevelt vote.

In Illinois alone the Democrats hope to regain at least four districts, three in Chicago and at least one

down the state. In Chicago the Fourth, Fifth and Eighth went Republican unexpectedly, and the Democrats hope to get them back. They expect to regain the Twenty-first and Twenty-third districts. In nearly all the states of the west for which headquarters will be established in Chicago, Democratic losses were received two years ago, which the Democratic congressional managers believe they can recover.

The opening of headquarters here will be the first appearance of national politics in Cook county.

**NEW YORK DEMOCRATS**

**Will Nominate Hearst, It is Claimed, and Tammany May Help.**

New York, July 25.—"W. R. Hearst is going to be nominated for governor by the Democratic convention," said W. J. Connors, the Buffalo leader. "He will have about all the delegates from the counties up the state, including I see. He will have a clear majority of the delegates in the convention without any help at all from the city. He doesn't need Tammany Hall, nor the Kings county organization."

"It is a simple question of arithmetic. It takes New York, Kings, Richmond, Erie and a few more up-state counties to beat an up-state proposition in a Democratic convention, and Hearst will have Erie and about all the rest of up-state counties. If New York and Kings do not want Hearst they can flock by themselves."

Mr. Connors' remarks were submitted to some anti-Hearst Democrats for indorsement. Nobody would dispute them for publication.

Mr. Connors had a chat with Tammany Hall leader Charles F. Murphy afterward. The following question was put to Murphy:

"Is it possible that Tammany would support Hearst in the state convention in view of the fact that Hearst opposed the Tammany municipal ticket last year and has done his best to disorganize Tammany Hall?"

Murphy said: "Yes; it is possible. Mind, I do not commit myself. I don't say Tammany will be for Hearst. I only say that his opposition to our ticket will not in itself make it impossible for Tammany to support him in the convention."

**ILLINOIS CONVENTION.**

**Will Indorse Bryan, Says Boeschstein—Big Welcome Committee.**

Chicago, July 25.—Indorsement of William Jennings Bryan for the Democratic presidential nominee in 1908 by unanimous vote of the Democratic state convention which meets at Peoria August 21 was forecast by Chairman Charles Boeschstein, of the Illinois Democratic committee, when he came to Chicago yesterday. Mr. Boeschstein announced that he had been invited to appoint a committee to meet Mr. Bryan in New York by Norman E. Mack, Democratic national committeeman from New York, and that he would appoint on a committee of 100 Mayor Edward F. Dunne, Roger C. Sullivan and Carter H. Harrison, thus insuring representation to the various camps of the local Democracy.

**TWO REPUBLICAN  
STATE TICKETS  
LIKELY IN IOWA**

**BITTER POLITICAL FIGHT OF  
GREAT NATIONAL IM-  
PORTANCE.**

**Governor Cummins and His Opponent, Perkins, Leaders in Conflict for Supremacy.**

Sioux Falls, Ia., July 25.—At Des Moines on Wednesday, August 1, the greatest political battle ever waged in Iowa will be over or resumed on more desperate lines than ever. If over, Governor Albert B. Cummins or ex-Congressman George D. Perkins of Sioux City will be nominated by the Republicans in state convention for the governorship. If reopened with added bitterness and determination, then both Cummins and Perkins will have been nominated by a split convention and Iowa will for the first time in history have opposing Republican tickets in the field.

With the county conventions over and, on the face of the returns, the majority showing for the renomination of Governor Cummins for a third term, the state settled back an instant to rest from strife, but the respite was brief. The announcement from headquarters that the "contest" was to go on and that Polk county in which the state capital is located and in which Governor Cummins lives, is to be contested has set the state by the ears again. Polk county has 72 delegates. If by hook or crook they should be taken from Cummins, his chance for nomination would be slim.

But whatever happens at Des Moines on August 1, it will have large influence on national as well as state politics. Besides determining whether there will be one or two Republican candidates for governor, the convention means much.

It means a declaration for tariff revision if Cummins wins, or for "standpatism" if Perkins wins

**Colonel Shook Declines to Be Drafted as Trustee of Mutual Life.**

**USES VERY PLAIN LANGUAGE**

**Says He Would Be With The Minority and Could Do No More Than Protest Against Policies Inimical to Policyholders' Interests—Whole Board Should Be Ousted.**

New York, July 25.—After a conference with the counsel for the policyholders' committee of the Mutual Life Insurance company Colonel Shook of Nashville, Tenn., who was placed on the administration ticket for trustee without his consent, said:

"The revelations during the past year as to flagrant extravagance in the conduct of the business, gross mismanagement, diversion of the sacred trust funds for unauthorized purposes, and wanton disregard for the interests of policyholders constitute an indictment not only against the officers who were directly responsible, but against the trustees to whom the policyholders had a right to look for protection. The throwing overboard of a few officers who were caught and pilloried by public opinion for misdeeds is simply a tub thrown to the whale of outraged and injured policyholders. We believe that the real power which has been in control of the affairs of this company, and which put in office the men who, when caught, it then deposed, is still seeking to dominate. It was this power, we are constrained to conclude, which caused men of conscience to retire from the board of trustees months ago when they found themselves in a minority in advocating measures to the highest and best interests of policyholders. We cannot see it otherwise than that, if we were elected on the ticket proposed by the administration, we would find ourselves in a hopeless minority and unable to do more than raise a voice of protest to policies disregardful of the policyholders' interests."

"The policyholders, who constitute the real company, and not the management, are entitled to not a minority who will look solely and alone to their interests, but to an entire board of trustees who will be thus actuated. We cannot get away from the conviction that there should be an entire change of control of this company from the elements heretofore in control to the policyholders themselves. It is neither logical nor safe to trust a second time those who have once been false."

**DEMOCRATS**

**Will Open Congressional Campaign Headquarters in Chicago.**

Chicago, July 25.—The western division of the Democratic Congressional campaign committee will open headquarters at the Palmer house in Chicago August 1. Final arrangements were made by Congressman Rainey of Illinois and Lloyd of Missouri, who were appointed by Chairman Griggs of the congressional committee to direct the movement. The western division will include Ohio and all northern states west of it and all states west of the Mississippi river except Texas, Arkansas and Louisiana.

**Socialists Make Nomination.**  
Salt Lake City, Utah, July 25.—The Socialist state convention held here nominated William S. Dalton of Salt Lake City for judge of the supreme court and Homer P. Burt of Salt Lake for congressman. A resolution condemning as "anarchists" the governors of Idaho and Colorado for their actions toward Moyer, Haywood and Pettibone, under arrest charged with the murder of former Governor Frank Steunenberg, was adopted.

**Land Fraud Case.**  
Washington, July 25.—Justice Gould in criminal court denied the motion of counsel for defendants in the case of the United States against Frederick A. Hyde, John A. Benson, Henry P. Dimond and Joost H. Schneider, indicted in connection with public land frauds in Oregon and California, in which it was sought to compel the government to elect as to which of the counts in the indictments they will be tried upon.

**Weber to Be Hanged.**  
Auburn, Cal., July 25.—Adolph Weber, who murdered his father, mother, brother and sister at this place two years ago in order to obtain possession of the family estate of about \$60,000, was brought into court and sentenced to be hanged on September 12. Once before the youth was sentenced to death, but his appeal to the supreme court served as a stay of execution.

**To Command Pacific Squadron.**  
Washington, July 25.—Rear Admiral W. T. Swinburne, lately commissioned a rear admiral, has been detached as a member of the general board of the army and navy joint board and assigned as commander-in-chief of the Pacific squadron, succeeding Rear Admiral Goodrich. His flagship will be the Chicago.

**Two Prominent Members of Granville Town Council Have Quit—News From Village.**

Granville, July 25.—Messrs. Boaz Jones and Alfred Lee have tendered their resignations as members of the town council. This action on the part of the above named gentlemen is greatly deplored by the people of Granville, as both gentlemen have always labored hard for the best interests of the town. Mr. Lee gave as his reason for resigning that he was about to leave for Virginia, where he has been employed to work at his carpenter trade on a large hotel to be built in one of the cities of that state, and that he expects to be absent for about two years. Mr. Jones, who is engaged in the gas business, says he has not time to give his attention to council business and properly attend to his own business.

Mr. and Mrs. M. P. Ashbrook returned from Winona Lake, Ind., where Mr. Ashbrook was a delegate to the National convention of Gideons, of which he is the State Secretary. Mr. Ashbrook says the next national meeting of the Gideons will be held in Toledo during the fourth week of July. The newly elected national officers are Charles M. Smith of Detroit, Mich., vice president, J. K. Hamphill of Nashville, Tenn.; Nels Rylander, Chicago.

**What Noon Means in Law.**  
When is it legally noon. Fire insurance policies expire at noon and the word is admitted to mean exactly at 12 o'clock midday. But standard time has not been adopted in all communities. Many small towns cling to sun time, which may be from a few minutes to nearly an hour earlier than standard. In one state a fire occurred at two minutes past noon, sun time, and the insurance company held that the policy had expired before the fire. Sun time is used in that time, but the insured sued the company, holding that local customs did not rule the policy and that he was entitled to his insurance. The state courts sustained him. In another state a similar contention was taken to the courts and just the opposite decision given. Several conflicting precedents have been established in state courts and it is said the question can only be decided for good and all when a case has been carried into the United States courts and passed upon by the Supreme court.—New York Press.

**CHICAGO VERSION  
OF NOAH WEBSTER**

**According to It, Homicide is Leaving Wife or Children Under Sixteen Without a Home.**

Chicago, July 25.—Webster and Worcester and the other dictionary sharps have received a jolt from embryo Chicago policemen, which furnishes a discouraging commentary on the efforts of lexicographers to teach the western mind to shoot straight. The civil service board is laughing yet over the returns from the examination of 800 candidates for jobs as policemen.

Many of the questions in the examination papers were intended to test the candidates' knowledge of legal terms, and their power of definition. Some assorted samples of indigenous Chicagoese humor are furnished by the board from the following questions and answers:

Q. What is a homicide? Leaving wife or children under sixteen without a home.

Q. Mother killing her child? A. To ruin a person's face.

Had "infanticide" been whispered in the candidate's ear his thoughts might have concerned a new brand of baby food.

Q. Where a person commits himself? A. Carrying concealed weapons; a hold-up man.

Q. Perjury? A. Unjustly defaming character; a misdemeanor.

Q. Gaming? A. Killing game without a license.

Q. Making fun of other people? A. A misdemeanor.

Q. Alibi? A. A false oath for which a person can be imprisoned.

Q. Felony? A. Case where a person may try to get what is unlawfully due him, such as money.

Q. Duty of an officer when he finds a victim of an accident who was seriously injured? A. Arrest that person.

More than half of the 800 papers were defective.

**Old Stamps and Defrauded the State of New York.**

New York, July 25.—Charged with selling mortgage tax stamps and stock transfer tax stamps that had already been used, five men were arrested on complaint of the state comptroller, Attorney General Mayer and District Attorney Jerome. The authorities charge that the state government has been defrauded of over \$200,000. The men arrested in Wall street are Frederick Thompson, a clerk, 53 years old; William O'Reilly, 21; Patrick King, 16; C. H. Lawrence, 23, and Luke McSherry, a retired fireman, all of Brooklyn. It is alleged that the marks on the stamps were removed by the use of chemicals, after which the stamps were ironed.

## CREW RESCUED FROM SINKING SLOOP BY LINER IN MIDOCEAN.

Capt. Gabrielsen and crew of the Undala

New York, July 25.—In addition to her own passengers the New York, of the American line, had on board two other shiploads when she made port from Southampton Saturday. One comprised the passengers of the big Deutsche, which had crippled herself just as she was beginning her journey to this side, and those voyagers were transferred to the New York; the other was eleven men who had joined the crew of the Norwegian bark Undala and who were rescued by the New York as their vessel was on the point of foundering.

According to the tales told by the men of the bark, the vessel was in sore need of aid when rescue came. Deal Island, the elderly craft had set out from London, N. B., on July 5, bound for England, and had proceeded only a few hundred miles on her journey when she sprang a leak. It was such a big leak that the men who were hurried to the pumps said that they could feel the vessel settling under them.

Throughout the next two days and nights they toiled incessantly at the

pumps, even the captain taking a hand, for the seas had begun to wash over the decks, and were washing heavier as the bark sank lower. Overcome with weariness the men were on the point of despair when the New York was sighted.

Those on board the New York now take up the tale. "It was on the early afternoon of July 13," said one of the officers of that vessel, but who does not wish his name to be used, "that we made out a vessel two points on the port bow, and as we approached we saw that she was flying the international code signal, 'Want immediate assistance.'"

"The New York slowed as she drew near, and, taking up a position to windward of the bark, lowered a lifeboat and sent it to the rescue in charge of Mr. Turner, chief officer. The news that a rescue was about to be essayed, had brought all passengers on deck, and these eagerly watched the progress of the boat as it made its way to the wreck. Six of the crew were taken into the boat, the other five getting into the long boat of the

bark. Meanwhile the New York had circled to leeward of the wreck, so that the boats could more easily reach the steamship. There was not much of a sea, and the rescued men were taken on board without much difficulty. There was one negro in the crew, but his face was so ashen from fright that it was difficult to distinguish him from the rest of the gaunt, hollow-eyed crew.

"As the derelict was apt to prove a menace to navigation, a quantity of turpentine was lowered into the New York's lifeboat and the craft sent back with orders to set fire to the wreck. This was done, and as the boat put back to the New York flames burst from the Undala's deck houses, the interiors of which had been saturated with the turpentine before applying the match."

On board the New York the passengers raised a fund of \$145 for the rescued men, none of whom had saved anything except the clothes which they wore. Upon their arrival here they were taken in charge by the Norwegian consul.

## ALL THE TRUSTS IN STATE OF OHIO

HAVE HAD A WARM TIME UNDER THE VALENTINE ANTI-TRUST LAW.

Standard Oil Company, Ice Men, Coal Dealers, Bridge Combine, All Under Search Light.

Columbus, O., July 25.—The announcement by John D. Rockefeller from abroad that he intends to return to this country and meet the criminal proceedings instituted against him at Findlay, as the representative of the accused Standard Oil company, serves to call into prominence the fact that public sentiment is a powerful factor in executing law. At the time of the passage of the so-called Valentine Stewart anti-trust act in 1898 it was predicted that it would never become operative, but would be classed with that bulky catalogue of statutes properly called "dead letter." For a time this prediction held good.

Really the first prosecution under its provisions did not take place for some years afterward, when the members of the Delaware Coal Exchange, at Delaware, were indicted and convicted in 1902. The case was appealed to the Circuit court, which tribunal set aside the verdict on the ground that the criminal section of the statute was unconstitutional. In 1904 the Supreme court heard the appeal of the state. Attorney-General Wade H. Eli asked leave to be made a party to the prosecution in the name of the State, and virtually took charge of the case. The result was the affirmation of the finding of the Common Pleas court at Delaware and the holding by a unanimous bench that the law was unconstitutional and void in every respect.

The Delaware case contained clearly the elements of the crime which the law forbade. The coal dealers of that city had formed themselves into an association to control the supply and price of fuel in that territory, a custom that had long been sanctioned by usage. It was held that this was a combination in restraint of trade. The Exchange was dissolved and the members heavily fined. That case has since been the basis of the numerous prosecutions since instituted.

Among the first suits entered thereafter was that against the coal dealers of the city of Cleveland. It was successful and some of the offenders were fined lightly as a warning. The present prosecuting attorney, it is said, is of the opinion that the proceeding was inspired more to defeat justice than to promote it, and there is a rumour that he will reinstate those who escaped punishment at that time in order that an example may be set.

Since then indictments have been found against the Master Plumbers' Association of that city for maintaining a combination to keep up prices and restrain free trade, and its members are awaiting trial.

In Toledo prosecuting Attorney Lyman Wachenheimer indicted the members of the Ice Dealers' Association there. One of them was found guilty and the rest pleaded guilty. They were heavily fined by Judge Kinkade and sent to the workhouse. Sensational proceedings were instituted by Clarence Brown, Alexander Smith and Thomas Tracer, their attorneys, who charged that Judge Kinkade had made a corrupt deal with them to have the pleas of guilty entered, with the understanding that their clients were to be given nominal fines. Judge Kinkade threw out the motion for an appeal and fined the lawyers for contempt. Last week the Circuit court dismissed the contempt proceedings and ordered Judge Kinkade to hear them on the peculiar theory that he had no right to decide the matter out of his own knowledge. At best this is a technicality, but the ice dealers are out on bond pending the settlement of the motion.

In Franklin county the grand jury has indicted the ice dealers of the city of Columbus for maintaining such a combination as it was shown existed in the city of Toledo.

In Cincinnati prosecuting Attorney Pulsion has caused the laundry men of that city to be indicted, following their raise of the price of washing, and they are awaiting a hearing. He has also caused the indictment of Rudolph Kleybolte and Henry Burkhold, two prominent coal dealers, under the Valentine act, it having been discovered in fishing for a bribery indictment that there was an understanding between certain companies in making a bid for the city's coal supply. And latest are the indictment of the Cincinnati ice men.

At Findlay Prosecutor David has filed proceedings against the Standard Oil company and constituent companies, having behind him the moral influence and actual support of the Attorney-General's department. As has been stated a warrant has been issued for the arrest of John D. Rockefeller by the Probate court under the misdemeanor act.

At Marietta the Vacuum Oil company, one of the "walking horses" of the Standard money, was forced out of business in Ohio by the Attorney-General through the threat that the Valentine act would be invoked. But the greatest work under the law has been that against the members of

the Bridge trust which has been shown to be a constituent part of the Steel trust. Attorney General Ellis has detailed Deputy Attorney General Orla E. Harrison to take charge of this work. Some months ago he had a conference with the Prosecuting Attorneys of the various counties which were working under the Valentine act and reached an amicable understanding for a harmonious union of forces. In Erie county seven bridge companies and nine agents were indicted and a majority were found guilty. In Huron county five bridge companies and six agents were put through the same process and fined from \$250 to \$500 each.

In Ottawa county ten companies and ten agents have been indicted and in Henry county ten companies and eight agents. These cases are pending for the reason that the courts are now in vacation season. In Allen county eight companies and ten agents have been indicted. One of them has been tried and convicted and the others will be tried upon the same record.

These are the criminal suits that have been filed under the revived law that so long lay dormant. The civil proceedings are innumerable. Former Representative Hal C. DeRan, of Freedom, and former Attorney-General Frank S. Monnett have been responsible for the filing of dozens of them in the various counties where afterward the Bridge trust representatives were indicted. In Sandusky county alone these suits mounted up into double figures. It has been charged that through these illegal combinations the public treasury was looted of large sums and the suits are filed for the purpose of recovering the money, together with the exemplary damages and penalties which are provided for in the statute.

Some years ago suit was instituted in Wyandotte county against the so-called Harvester trust, but no action has ever been taken under it. Suits were also filed in Hocking and Crawford counties against the Hocking Valley and Ohio Central railway companies for maintaining an illegal combination. Judge David F. Pugh and Frank S. Monnett being the attorneys from this city who co-operated with other attorneys in the counties named.

The dismissal by consent of these suits has been the cause of a scandal which the grand jury of Crawford county took up recently at the instance of Judge Tobias, of the Common Pleas court, who asserted that there was collusion in the recall of the prosecution of the claims of the counties for damages. Nothing has ever been done in Hocking county, although the conditions are practically the same as in Crawford county.

## GERMS OF HEALTH IN HARDYFOOD

For the Athlete or Business Man Proper Food is the Desideratum.—It Should Contain the Maximum of Brain and Muscle Builders.

SUCH A FOOD IS HARDYFOOD.

The business man and the athlete in their activities use up a large amount of brain and muscle tissue.

Every move one makes originates in the brain.

Motion is thought before it is action, and both efforts use up brain and muscle rapidly.

The greater the effort the greater the cost in body fuel.

To supply this waste as rapidly as possible, with as little effort on the part of the digestive organs as is necessary, is the mission of Hardyfood.

It is a natural food prepared from grains carefully selected and so combined as to supply all the elements needed in the body.

Hardyfood is so palatable that many eat it directly from the package without any preparation on the part of the housewife.

Many men keep it in their office desks and partake of it during business hours.

It overcomes that tired feeling. In the morning it fortifies one for the day's efforts and in the evening its use is restful.

All grocers—10 cents.

Maccabees Parade.

Columbus, O., July 25.—With flying banners and to the martial music of several brass bands, the Legion Bands of the Knights of the Maccabees, who are holding their national encampment in this city, gave a street parade, with 1,000 men in line. The companies all presented a fine appearance and gave evidence of careful drill.

## GOLDEN WEDDING WAS CELEBRATED

BY MR. AND MRS. JAS. H. SMITH AT THEIR EAST MAIN STREET HOME.

A Number of Relatives and Friends Were Present to Offer Congratulations to Happy Couple.

The golden wedding of Mr. and Mrs. James H. Smith, of 102 East Main street, was very fittingly celebrated at the residence of the "bride and groom" Tuesday, the affair being a most delightful one and a number of the relatives and friends of the family were in attendance.

The feature of the celebration was a delightful party over the carriage and beautiful country drives. The ride was followed by an elegantly appointed dinner served at the residence at 6 o'clock. Those present from out of the city were: Mr. and Mrs. Milo A. Smith of Denver; Mrs. Frances D. Parr of Denver; Mr. and Mrs. Jesse M. Smith of New York; Mr. and Mrs. Millard T. Conklin of Birmingham, Mich.; Dudley R. Smith of Baltimore, Md.; Mrs. Milford D. Smith and daughters Delia and Harriet and son James of Adams Mills. Most of the out of town guests were brothers and sisters of the bride and groom.

The guests from the city were: Mrs. Walter M. Smith, Mrs. J. H. Glover, Mrs. B. J. Wilson, Mr. and Mrs. George B. Sprague and daughter Anna, Miss Alice Dennis, besides Mr. and Mrs. Charles B. Stevens and Misses Julia and Frances Smith.

During the afternoon Mr. Charles Hemsted, the West Main street photographer, took several fine pictures of Mr. and Mrs. Smith, and also some group pictures of the friends who were present.

## Police Court.

A complaint was made at the mayor's office Tuesday afternoon that a dog belonging to Orrin Freeman of Beech and Leroy streets, attacked a little girl living in that neighborhood and that the girl was badly bitten. The complaint was accompanied by the request that the dog either be muzzled or killed. The officers will investigate.

Tip O'Neill, the crook from Columbus who was tried in this city for being implicated in an attempted jail delivery in Columbus, has been arrested in Cleveland where he was found with a suspicious gang. The men had burglars' tools in their possession besides a quantity of nitro-glycerine.

John Andrews, a young man employed at the Heisey glass plant, was arrested yesterday afternoon on a warrant which was sworn out by Perry W. Pratt of the Pratt-Kirk company. Andrews is charged with throwing stones at the Pratt-Kirk Company building in East Newark, endangering the lives of the workmen.

It seems that the boys employed at the Heisey factory have been passing the Pratt-Kirk building and throwing stones through the windows where the men are at work at their benches. Andrews pleaded not guilty and the case was continued.

Four cases of booze were up before the mayor Wednesday morning, all the victims being in on the drunk charge. Hank Leonard was one of the number. He had three charges against him, the additional charges of disorderly conduct and resisting an officer, being attached to the plain drunk charge. He drew a fine of \$5 on each charge and the costs. He was sent to jail. The other victims were assessed the usual fines.

## Health Officer's Troubles

"I wish you could stand at my telephone for about a half an hour some day and hear a few of the reports and complaints which come into my office," said Health Officer Clark E. Hatch, to a reporter Tuesday.

"Tell us about it," said the reporter. "The complaints are without number. They come from all parts of the city and all manner of imagined ills are poured into my ear. First some one wants their neighbor to cut their weeds. The next will want to know why the city doesn't cut the weeds on some of the sidewalks about the outskirts of the city."

"The limit was reached the other morning though, when a woman residing in the North End wanted me to kill rats for her. She said she wanted me to come to the house right away and bring a gun and shoot the rats. Of course I had to beg off but she was really in earnest in wanting me to rid her cellar of the pests."

## Cleaning Up.

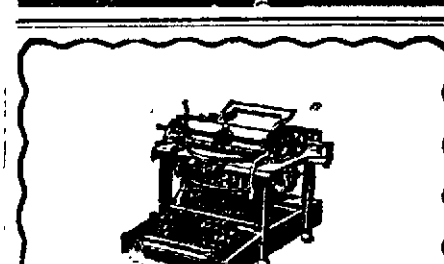

Philadelphia, July 25.—A meeting of the board of health announced that it was made that twenty slaughterhouses recently condemned as unsanitary had closed permanently. Sixteen other establishments were improved by order of the board, and the owner of one slaughterhouse who refused to obey the mandate to improve his plant was ordered prosecuted.

Thirty years ago I made my first public appearance at the Centennial Exposition at Philadelphia. I was a stranger then. People took away specimens of my writing as curiosities. Today everybody knows me and these specimens fill the mail cars.

Every one of my thirty years has been a year of progress—both in quality and sales. The year 1906 is emphasizing my supremacy—my sales for the first quarter breaking all existing records.

Today I am the oldest and still the newest. Not that I was first am I best, but that I am best am I first. I am the product of the second generation of Remington's artisanship. My New Models represent the experience of the old combined with the progressiveness of the new. In my present form I embody all the qualities which have made me famous—plus improvements so fundamental as to create a new standard of typewriter work.

## PURITY.

Walter Freese figured in an exciting runaway recently. He was returning from Leroy Branton's fruit farm near Clay Lick with a load of raspberries when his horse frightened at some object on the Wilkins Run road, north of Newark, and began running. The buggy was upset and Mr. Freese thrown out, after which the horse ran about a mile farther before it was stopped. Mr. Freese received some painful bruises about the head and shoulders and the buggy was badly wrecked, but the horse and the berries were unharmed.

A side hunt is on at this place under Captains Henry Braden and John Neighbarger. The war on rats, mice and other small game will last until August 1, after which a supper will be served at the expense of the losing side.

## Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition, beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased. Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same greater remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

Don't make any mistake, but remember the name Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

## FIANCE FOLLOWS GIRL TO SUICIDE'S GRAVE

Broken-Hearted Because Sweetheart Ended Life in Accordance, With Pact Made With Girl Chum, Marion Merchant Drinks Carbollic Acid—Lived in Newark.

Marion, O., July 25—Brokenhearted because of the suicide of his sweetheart, Miss Cora White, aged 18, who drank carbollic acid a week ago, O. Guy Johnson, a well known business man, took his life some time Monday afternoon or night. His body was found in his place of business yesterday morning.

An empty bottle of carbollic acid and razor told the story of his end. He had also turned on the gas. The razor had not been used.

Johnson came here several years ago from Newark. For more than a year he had kept company with Miss White, the pretty daughter of N. J. White. The engagement had been announced the day Miss White took her life. It is generally supposed that the lovers quarreled. She had been employed in Johnson's store.

The same day the quarrel occurred Johnson advertised for a clerk to take Miss White's place. Before the advertisement appeared Miss White lay a corpse. Since then Johnson has been greatly censured by the public and it

is supposed that this remorse over her death drove him to take his own life. A suicide pact is said to have existed between Miss White and Miss Edna Shunk, who committed suicide at Los Angeles, but this was stoutly denied by both families.

Some years ago Johnson lived in Newark and drove a cab for Edward Lippincott. From here he went to Columbus where he held the position of night clerk in the Emerson Hotel while the late M. M. Miller was proprietor of the house. At the time of the breaking out of the Spanish-American war young Johnson who was not yet of age, wanted to enlist, but was refused, because he was under age. Determined to get into the army he had Mr. M. M. Miller appointed as his guardian and Mr. Miller giving his consent he was accepted and went out with one of the Columbus companies. At the close of the war he went to New York city where he remained for several years, when he returned to Columbus, but for the past four or five years he has been engaged in the cleaning and dyeing business in Marion.

### "HINKEY"

Got Appendicitis Just Like Real Folks and a Successful Operation Was Performed.

Philadelphia, Pa., July 25—An operation for appendicitis was successfully performed at the Dog and Cat Hospital Tuesday on "Hinkey" a Skye terrier the mascot of the torpedo boat Hopkins, now lying at League Island. So far as known, this is the first case of a dog having been operated on for appendicitis. Dr. G. R. Hartman, who performed the operation, said the dog had a plain case of the disease, caused by some substance it had eaten which had lodged in the appendix.

The crew of the torpedo boat had grown to love the dog, and when he became ill it was agreed that no expense should be spared in saving his life.

Republicans of Alabama have decided to put a full state ticket in the field.

## AN OFFENSE TO MILK ON SUNDAY

Ride in a Hack or Don a Bathing Suit—One Hundred Persons Fined Ten Cents Each.

New Orleans, July 25—The climax of Sunday law enforcement in Mississippi came Tuesday when over a hundred people, against whom affidavits had been filed, gathered in the police court at Biloxi and were fined 10 cents each for violations of the Sunday laws. Several of the offenders had committed the crime of milking their cows after midnight Saturday. Others rode in a hack after the arrival of the midnight train and others had done the unnecessary labor of putting on a bathing suit and going bathing on the holy Sabbath day.

The authorities say that they intend to enforce the law strictly from now on and all violators will have to expect a ten cent fine if they go fishing on Sunday for the remainder of the season.

There is much indignation in the Gulf coast resorts and many of the residents say they will take a bath and go fishing on Sunday and will then appeal the case to the Supreme court rather than pay the ten-cent fine which will be imposed for all violations of the law.

### FEDERATION RUMOR

Arouses Feeling and Calls For Denial by Premier Bond.

St. Johns, N. F., July 25.—Statements appearing recently in the Canadian press that Earl Gray, who is to be the guest of Governor MacGregor, comes to discuss a federation with Canada, and would be followed by Premier Laurier and other Ottawa ministers, have aroused so much feeling among the government's supporters here that Premier Bond was compelled officially to announce that all such reports were unfounded. He added that the government knows nothing of any proposed conference and does not intend to be a party to any conference which would re-open the question.

## FELT THE SHOCK OF EARTHQUAKE

Former Residents of Licking County Visiting Here After 30 Years' Absence.

Mr. and Mrs. A. A. Geer, formerly well known residents of the northern part of Licking county, but who for the past 30 years have resided in San Jose, Cal., are visiting relatives and old acquaintances in Ohio and in this city.

Mr. Geer for a number of years was the proprietor of a general store in Appleton, where he has a large circle of friends. Mrs. Geer was formerly Miss Hanna Bellus of Fredonia. In 1878 Mr. Geer sold his property in this state and went to California, where he has been engaged in fruit cultivation to an extent.

Both Mr. and Mrs. Geer were at their home in San Jose at the time of the terrible Fresno earthquake and being but about fifty miles from that city, felt the terrific shocks distinctly. A number of buildings in San Jose were affected but fortunately there was no loss from fire.

Mr. and Mrs. Geer will probably remain in Ohio for a few weeks before leaving for their home in the Golden State.

## HE LIKED

To Please the Boys, But He Got Sore When They Set Him on Fire For a Joke.

Cincinnati, July 25—With his shirt nearly burned off and his right arm a blister from wrist to shoulder, John Charles Hanrahan, of Wade street and Central avenue, last evening came to police headquarters and wanted to swear out warrants for several practical jokers he said had set him on fire. Hanrahan is a frequenter of Joseph's saloon, at Wade and John streets, and he says he has been the complacent butt of the jokes the young men of the neighborhood are fond of playing.

He said that for the drinks he had often let them pour alcohol over his back and set it afire. He never got burned that way. Monday night he said he jumped into the canal from the Fifteenth street bridge, "just because the boys laughed so heartily over it." They thought he couldn't swim because he was so old, being over 50, but he fooled them. Hanrahan said that he floated about on the canal and did a lot of fancy strokes for the amusement of the crowd. "I didn't mind gettin' my clothes wet," he said, "but I did get a little put out when the boys carried over a garbage barrel and dumped it onto me and then threw chunks of dirt and rotten cabbage at me. I thought then I'd quit letting them play jokes with me. But it was all forgotten yesterday when some of the boys came in and wanted to set me on fire again. They poured something on my arm and I thought it was alcohol. But the darn stuff was coal oil and I couldn't put it out."

Hanrahan's arm was badly burned. He said he wanted to charge the fellows with arson. He named Louis Mittenberf the bartender, as the en. promoter of the party. He was told to get a warrant for the men. He then went to the City Hospital and had his burns dressed.

It is charged that \$2,600,000 in stocks and bonds, belonging to the Marshall Field estate, have been removed from Chicago to New York to escape local taxation.

The Stromboli volcano, after quieting down, has again become violently active. The ashes which daily fall, are pouring out of the crater and the population of the island of Stromboli is most excited.

According to the United States Geological Survey, the production of sulphur in 1905 amounted to 69,000 tons.
